VIN 6G25H155042, and Illinois license YNU 402. Eto pretended to be dead and after his two assailants fled, he was able to seek medical help. Eto has since been cooperating with Federal authorities and has advised that his two assailants were LCN figure Jasper J. Campise and hoodlum John A. Gattuso. At the time of the shooting, Eto was sitting in the driver's seat, Campise was in the front seat next to him, and Gattuso was in the back seat behind Campise. Gattuso did the shooting. One bullet lodged in the windshield.

Campise is described as a white male, date of birth 3/15/15, FBI Number 3686563, and Gattuso is described as a white male, date of birth 6/27/35.

Chicago Police Department Crime Lab Technicians did initial examination of the automobile and discovered only two bullet fragments. One fragment has been identified as a .22 caliber slug with 6 lands and grooves and a right twist. The other fragment was too small to classify.

On 2/24/83, Chicago Division took possession of the automobile and on 2/25/83, it was examined by Bureau Agents. Enclosed items are parts of the automobile. No other bullets were discovered.

Request of FBI Laboratory

FBI Laboratory is requested to conduct hair and fiber examinations on the enclosed items, and to look for metal objects on or imbedded in the items and determine if these objects are related to firearms.

FBI Laboratory is also requested to examine the items for blood samples, and to determine the blood type of any samples discovered.

VIA THESE DEBRIEFINGS AND COOPERATIVE EVIDENCE, IT IS ANTICIPATED THAT UNITED STATES ATTORNEY'S OFFICE, THROUGH AUSA JEREMY MARGOLIS WILL POSSIBLY INDICT ABOVE INDIVIDUALS FOR RICO VIOLATIONS, GAMBLING, ATTEMPTED MURDER, MURDER, INTERSTATE TRANSPORTATION TO AID RACKETEERING AND OBSTRUCTION OF JUSTICE IN THE NEAR FUTURE.

ON FEBRUARY 28, 1983, JASPER CAMPISE WAS ABLE TO MAKE THE ONE MILLION DOLLAR BOND SET BY UNITED STATES COURT JUDGE JOEL FLAUM BY PRESENTING \$650,000 OF UNMORTGAGED PROPERTIES AND \$400,000 OF SIGNATURE BONDS. ON FEBRUARY 28, 1983, CAMPISE AND GATTUSO WERE INDICTED BY THE STATE OF ILLINOIS FOR ATTEMPTED MURDER. CAMPISE WAS TAKEN INTO THE CUSTODY OF THE STATE EVENING OF FEBRUARY 28, 1983, AND NOW IS IN THE STATE CUSTODY. JOHN GATTUSO HAS A BOND REDUCTION HEARING SCHEDULED FOR TUESDAY, MARCH 1, 1983, BUT IT IS NOT ANTICIPATED THAT GATTUSO WILL BE ABLE TO COME UP WITH THE RESOURCES TO SATISFY A 1.5 MILLION DOLLAR CASH BOND. IT IS THOUGHT THAT GATTUSO WILL REMAIN IN FEDERAL CUSTODY UNLESS HIS BOND IS REDUCED AND HE IS ABLE TO DEVELOP THE RESOURCES TO MAKE

Instructions

Subject Priorities for FBI Arrest or Locates:

- A - Subject wanted for crimes of violence (i.e. murder, manslaughter, forcible rape, robbery and aggravated assault) or convicted of such crimes in the past five years.
- B - Subjects wanted for crimes involving the loss or destruction of property valued in excess of \$25,000 or convicted of such crimes in the past five years.
- C - All others

Claiming Convictions Other Than Federal:

It is permissible to claim a local (state, county or local) conviction if the FBI's investigation significantly contributed to the successful local prosecution. A succinct narrative setting forth the basis for claiming a local conviction must accompany this report. When claiming a conviction other than Federal, enter the word "LOCAL" in the "Conviction-Section" block, disregard the number of conviction counts, but enter the sentence in the appropriate blocks. Enter "LF" in the "In-Jail" block for all life sentences and "CP" for all capital punishment sentences.

Reporting Convictions:

Convictions should not be reported until the sentence has been issued. There are two exceptions to this rule. The conviction information can be submitted by itself if:

- 1. The subject becomes a fugitive after conviction but prior to sentencing.
- 2. The subject dies after conviction but prior to sentencing.

An explanation is required in the Remarks section for either of the above exceptions.

Rule 20 Situations:

The field office that obtained the process (normally the office of origin) is the office that should claim the conviction, not the office where the subject enters the plea in cases involving Rule 20 of the Federal Rules of Criminal Procedures.

Investigative Assistance or Techniques (IA/Ts) Used:

- Since more than one IA/T could have contributed to the accomplishment, each IA/T must be rated.
- The IA/T used must be rated **each time** an accomplishment is claimed. (For example - if informant information was the basis for a complaint, an arrest, a recovery and a conviction and if separate FD-515s are submitted for each of the aforementioned accomplishments, the "Informant Information" block must be rated on each FD-515 even if it was the same information that contributed to all the accomplishments.)

6. Top of passenger's side front seat back vinyl cover, left half.

7. Top of passenger's side front seat back vinyl cover, right half.

8. One copy of Chicago Police Department reports regarding attempted murder of Ken Eto.

Enclosed items 1 - 7 were taken from 1976 Ford Torino belonging to victim Ken Eto. Enclosed section of windshield (item 1) contains what appears to be a bullet hole.

Referenced airtel sets forth how victim Eto was shot by subject John Gattuso from behind while Eto, Gattuso, and subject Jasper Campise were sitting in Eto's automobile. Various parts from the inside of the automobile were sent as enclosures with referenced airtel to be examined by FBI Laboratory. During referenced telcall to John Kilty, he requested that the section of windshield containing the bullet hole and the top of the seat back cover from the front seat be sent to the Laboratory for powder residue, glass fracture, and other tests to corroborate that Eto was shot from inside his automobile.

Laboratory should note that referenced airtel stated that there was one bullet lodged in the windshield when Chicago Police Department technicians examined the automobile. This was apparently wrong since Chicago Police Department reports do not mention a bullet lodged in the windshield.

// Laboratory should also note that when Chicago Police Department technicians examined the automobile, they dusted all surfaces, including the seat covers, for // fingerprints.

Request of the Laboratory:

The Laboratory is requested to conduct powder residue, glass fracture, and other tests on the enclosed items in an attempt to corroborate that Eto was shot from inside his automobile. Enclosed seat back covers should be examined for gun powder residue, and enclosed windshield should be examined for minute lead fragments and also to determine if the bullet impact originated from inside or outside the automobile.

Claiming Convictions Other Than Federal:

It is permissible to claim a local (state, county or local) conviction if the FBI's investigation significantly contributed to the successful local prosecution. A succinct narrative setting forth the basis for claiming a local conviction must accompany this report. When claiming a conviction other than Federal, enter the word "LOCAL" in the "Conviction-Section" block, disregard the number of conviction counts, but enter the sentence in the appropriate blocks. Enter "LF" in the "In-Jail" block for all life sentences and "CP" for all capital punishment sentences.

Reporting Convictions:

Convictions should not be reported until the sentence has been issued. There are two exceptions to this rule. The conviction information can be submitted by itself if:

- 1. The subject becomes a fugitive after conviction but prior to sentencing.
- 2. The subject dies after conviction but prior to sentencing.

An explanation is required in the Remarks section for either of the above exceptions.

Rule 20 Situations:

The field office that obtained the process (normally the office of origin) is the office that should claim the conviction, not the office where the subject enters the plea in cases involving Rule 20 of the Federal Rules of Criminal Procedures.

Investigative Assistance or Techniques (IA/Ts) Used:

-Since more than one IA/T could have contributed to the accomplishment, each IA/T must be rated.

-The IA/T used must be rated **each time** an accomplishment is claimed. (For example - if informant information was the basis for a complaint, an arrest, a recovery and a conviction and separate FD-515s are submitted for each of the aforementioned accomplishments, the "Informant Information" block must be rated on each FD-515 even if it was the same information that contributed to all the accomplishments.)

Result of examination:

within
The collar and shoulder areas of specimens Q16 through Q18 were microscopically examined and chemically processed for gunshot residues. Gunshot residues were detected on the right shoulder and the rear of the collar of the Q16 raincoat. These residues are consistent with those produced by firing a weapon with approximately one and one-half feet from the Q16 raincoat. A more accurate muzzle-to-garment distance determination could not be made without a suspect weapon and knowledge of the type of ammunition involved.

Gunpowder residues were found in the scrapings from the Q16 raincoat, Q17 shirt and Q22 sheet.

The other requested examinations are continuing. You will be advised of the results of those examinations as well as the disposition of the submitted items by a separate report.

REFERENCE: Airtels 3/1/83 and 3/10/83
 EXAMINATION REQUESTED BY: Chicago
 SPECIMENS: Numerous miscellaneous items

The results of the laboratory examinations are set forth in a separate report.

The specimens were examined and one latent fingerprint, which is from the lower joint area of a finger, of value was developed on an envelope bearing return address beginning "Zayre...."

The latent fingerprint was compared, insofar as possible, with the fingerprints of Jasper Joseph Campise, born 3/14/15, FBI #3686563, Ken Eto, FBI #2767773, and John Anthony Gattuso, born 6/27/35, FBI #16411J5, but no identification was effected. Inked impressions of the lower joint areas of the fingers of these individuals are necessary for a conclusive comparison.

12 MAY 10 1983

The specimens are being returned under separate cover.

Re Chicago airtel to the Bureau of 4/5/83.

Enclosed for the Bureau, Microscopic Analysis Unit (MAU), are hair samples obtained from John Gattuso.

As the Bureau is aware, Gattuso is the alleged perpetrator along with Jasper Campise, of a murder attempt against Chicago Organized Crime (OC) Gambling Boss Ken Eto, which occurred on 2/10/83, in Eto's vehicle. Campise and Eto have already provided hair samples to the Federal Bureau of Investigation (FBI) which have been submitted to the FBI Laboratory along with all findings from the interior of Eto's vehicle.

REQUEST OF THE BUREAU

Microscopic Analysis Unit:

It is requested that the MAU compare the enclosed known hair samples of Gattuso with those obtained through previous submissions of material from within Eto's automobile in an effort to effect identification.
